I liked Chandu and Sandy from my class after prici.

Sandy demonstrated her cooking skills one day by preparing Maggie. We were all laughing at it. She compared it to preparing a difficult dish.😂

We was talking about sand with Jeba, Sandy, Prici, and Kalai (Abilash). Because one of us was a little taken with him.

Sandy misplaced her chain. She was searching and also missed her bus. I saw her very upset and it made her very depressed.

Sandy was adorable in my opinion. I'm sure if I were a guy, I'd fall for her cuteness.😂😉

She gave me a letter about my college that she had written with great care and affection. I considered attending college via correspondence, but she advised me to enrol in regular classes.

I gave thanks to God for Sandy's friendship. She was always concerned about my future with lot of care.
